---

## WORK EXPERIENCE

---

### Quantox Technology

2022 – Present

*Frontend Developer*

*Belgrade, RS*

- Developed web applications using React, TypeScript, REST APIs and data fetching libraries.
- Built functional UI features and components in accord with Figma mockups using CSS and component libraries (MaterialUI, NextUI).
- Worked in a team with other developers, designers, and project managers to create and improve web applications according to client or company needs.

### LINK Group

2021 – 2022

*Streamer*

*Belgrade, RS*

- Used a distance learning system to stream online classes for ITHS, IT Academy and related schools.

## EDUCATION

---

### Bachelor Studies – Dositej Academy

2021 - Present

*Information Technology*

### Comtrade – CODE Academy

2021 - 2022

*Frontend development*

- Completed a 6-month certified frontend development course with exceptional results.

### Singidunum University

2020 - 2021

*Software engineering*

## PERSONAL PROJECTS

---

### Raw Edge magazine / <https://raw-edge.vercel.app> / Nov. 2022

- Created a fashion magazine using Vogue's GraphQL API to fetch articles from my favourite categories.
- Users can view the latest runway shows and reviews, read articles, search for specific brands or designers and create an account to bookmark articles they like.
  - ★ **Tech:** GraphQL, Apollo Client, Firebase, React, Next.js 12, MaterialUI and other minor CSS libraries

### Gallery / <https://code-projekat.vercel.app> / Mar. 2022

- Pinterest-like CRUD photo gallery app.
- The user can sign up, upload, tag and delete their own images, change their password, name and avatar and view images that other people posted.
  - ★ **Tech:** React, Firebase, Framer Motion, CSS
