- Completed a 6-month certified frontend development course with exceptional results.

Singidunum University   **2020 - 2021**
Software engineering

PERSONAL PROJECTS

Raw Edge magazine / https://raw-edge.vercel.app / Nov. 2022

- Created a fashion magazine using Vogue's GraphQL API to fetch articles from my favourite categories;
- Users can view the latest runway shows and reviews, read articles and search for specific brands or keywords;
- Logged in users are able to bookmark their favorite shows/articles to save them on their profile;
- If there's a livestream currently playing on the Vogue website, the user will be able to watch it live on the homepage;
  - ★ **Tech:** GraphQL, Apollo Client, Firebase, React, Next.js, MaterialUI

Gallery / https://code-projekat.vercel.app / Mar. 2022

- Pinterest-like CRUD photo gallery app;
- Newest images and tags are automatically displayed on the Explore page;
- Logged in users can upload their own images or go to their Profile page to view or delete them;
- The user can change their password, name, avatar and toggle the app background color;
  - ★ **Tech:** React, Firebase, Framer Motion, CSS
